## **SOLIDARITY STATEMENT FOR WORKERS IN THE ENTERTAINMENT SECTOR IN ITALY**

The Italian organisations of the entertainment sector affiliated to UNI Global Union, SLC-CGIL and FISTEL-CISL, call for support and solidarity for Italian workers, technicians and artists in the entertainment sector.

Once again the Italian government has shown itself to be short-sighted, limiting itself to introducing measures that do not guarantee the development of creativity and the protection of quality work in the performing arts, instruments of democracy and pluralism for every country. These workers are committed to demanding safeguards for structurally discontinuous work and their struggle is fully part of the international mobilisation of all workers in the performing arts.
